Long-term employee benefits include After-Service Health Insurance (ASHI), repatriation grant and travel, and accumulated leave (posts). Note that the basis for allocating long-term employee benefit liabilities between current and non-current liabilities has been modified in the 2020 financial statements. Previously the current allocation was based on the expected expense in the following twelve months, and this has been changed to reflect the amounts expected to be settled in the following twelve months:

ASHI: Staff members (and their spouses, dependent children and survivors) retiring from service are eligible for After-Service Health Insurance (ASHI) coverage if they continue to participate in the collective medical insurance plan after separation from service. In accordance with WIPO's SRR, a share of 65 per cent of the monthly medical insurance premium is paid by the Organization. From January 1, 2021, monthly medical premiums amount to 596 Swiss francs for adults and 265 Swiss francs for children.

Repatriation grant and travel: The Organization has a contractual obligation to provide benefits such as repatriation grants, travel and removal for certain internationally recruited staff members at the time of their separation from service
